

## SENSORS

### PTS800MM

Front & rear parking sensor system

- 2 x Mercedes style LED displays
- 4 x front & 4 x rear sensors
- Audible & visual distance warnings
- Adjustable alert volume
- Fast & accurate obstacle detection
- Rear Detection range: 0.1-2.5m
- Front Detection Range: 0.3-1.0m
- Intelligent detection for towbar/spare tyre
- Self-test function

### PTS800V2

Front & rear parking sensor system

- Dash mount LCD display
- 4 x front & 4 x rear sensors
- Audible & visual distance warnings
- Voice or beep alert selectable
- Fast & accurate obstacle detection
- Rear detection range: 0.1-2.5m
- Front detection Range: 0.3-1.0m
- Intelligent detection for towbar/spare tyre
- Self-test function

### PTS800V3

Front & rear parking sensor system with AWS

- Dash mount LCD display
- 4 x front & 4 x rear sensors
- Audible & visual distance warnings
- Voice or beep alert selectable
- Rear detection range: 0.1-2.5m
- Front detection Range: 0.3-1.0m
- Intelligent detection for towbar/spare tyre
- Self-test function
- **Active warning system: warns approaching vehicles with beeping horn & indicators**

### PTS400M7-F

Front only parking sensor system

- Mercedes style LED display
- 4 x front sensors
- Audible & visual distance warnings
- Adjustable alert volume
- Fast & accurate obstacle detection
- Front detection Range: 0.3-1.0m
- Intelligent detection for towbar/spare tyre
- Anti false alert technology
- Self-test function

### PTS410V4

Reverse parking digital sensor system

- Dash mount LCD display
- 4 x digital rear sensors
- Audible & visual distance warnings
- Adjustable alert volume
- Range detection 0.3-1.5m
- Intelligent detection for towbar/spare tyre
- Intelligent moving object detection
- Anti false alert technology
- Installs directly onto metal or plastic bumpers

### PTS410M7

Reverse parking digital sensor system

- Mercedes style LED display
- 4 x digital rear sensors
- Audible & visual distance warnings
- Adjustable alert volume
- Range detection 0.3-1.5m
- Intelligent detection for towbar/spare tyre
- Intelligent moving object detection
- Anti false alert technology
- Installs directly onto metal or plastic bumpers

### PTSV400

Reverse parking sensor system with video output

- 4 x rear sensors
- Audible & visual distance warnings
- Adjustable alert volume
- Fast & accurate obstacle detection
- Rear Detection range: 0.3-2.5m
- Intelligent detection for towbar/spare tyre
- Self-test function
- Video output displays digital image with distance between sensors & object

### PTS410W1

Reverse parking wireless digital sensor system

- 4 x digital rear sensors
- Audible distance warnings
- Adjustable alert volume
- Range detection 0.3-1.5m
- Intelligent detection for towbar/spare tyre
- Intelligent moving object detection
- Installs directly onto metal or plastic bumpers
- Under bumper mount options
- **Ideal for commercial vehicles and pickups**

## BLIND SPOT DETECTION SYSTEMS

### PTS410

Reverse parking digital sensor system

- 4 x digital rear sensors
- Audible distance warnings
- Adjustable alert volume
- Range detection 0.3-1.5m
- Intelligent detection for towbar/spare tyre
- Intelligent moving object detection
- Anti false alert technology
- Installs directly onto metal or plastic bumpers

### PTS200BSD

Blind Spot Detection System - 2 Head

- Monitors rear blind spots not visible through side view mirrors
- Detects obstacles in 3m x 3m area
- Detects within 120 milliseconds
- Visual and audible warning indicators
- 2 x paintable rear bumper sensors
- 2 x internal LED visual warning indicators
- Buzzer alert unit for internal installation
- Maximum detection range: 3 metres

### PTS440BSD

Blind Spot Detection System - 4 Head

- Monitors rear blind spots not visible through side view mirrors
- Detects obstacles in 3m x 3m area
- Detects within 120 milliseconds
- Visual and audible warning indicators
- 2 x paintable rear bumper sensors
- 2 x paintable front bumper sensors
- 2 x internal LED visual warning indicators
- Buzzer alert unit for internal installation
- Maximum detection range: 3 metres

## TYRE PRESSURE MONITOR SYSTEM

### TP-40

DIY Tyre pressure monitor system

- Easy to install external sensors
- Easy to install cigarette plug display
- Wireless connection between sensor & display
- Visual and audible warning for tyre pressure
- Replaceable sensor batteries
- Locking external sensors
- Save fuel and reduce emissions
- Reduce wear & extend tyre life

## DIGITAL VIDEO RECORDERS (DVR) / CRASH-CAMS

### KPT-780

Kapture DVR

- Up to 1080p video resolution
- 2.7" LCD 16:9 screen
- GPS Logger
- Loop recording
- G-sensor auto save
- Motion detection
- Auto start-up & shut-down
- True HD image sensor
- 6 layered glass lens
- Records video & still images
- Windscreen mount included

### KPT-700

Kapture DVR

- Up to 1080p video resolution
- 2.7" LCD 16:9 screen
- Loop recording
- G-sensor auto save
- Motion detection
- Auto start-up & shut-down
- True HD image sensor
- 6 layered glass lens
- Records video & still images
- Windscreen mount included

### KPT-250

Kapture DVR

- Up to 1080p video resolution
- 2.0" LCD screen
- Loop recording
- G-sensor auto save
- Motion detection
- Auto start-up & shut-down
- Built in mic. & speaker
- Records video & still images
- Windscreen mount included

### KPT-150

Kapture DVR

- Up to 720p video resolution
- 2.4" LCD screen
- Loop recording
- Motion detection
- Auto start-up & shut-down
- Built in mic. & speaker
- Records video & still images
- Windscreen mount included

### KPT-600

Kapture 2 in 1 DVR & Sports Camera Pack

- Up to 1080p video resolution
- 2.0" LCD screen
- Loop recording
- G-sensor auto save
- Motion detection
- Auto start-up & shut-down
- Built in mic. & speaker
- Records video & still images
- Waterproof to 10 metres with case
- 5 x mounting accessories

DIRECTED AUSTRALIA & NZ

www.parkmate.com.au

**Protect your family and your vehicle with Parkmate!** Parkmate cameras, monitors and sensors can save your vehicle from incident or accident and in some extreme cases they can be a truly lifesaving device. With Parkmate products installed in your vehicle, external blind spots including directly behind your vehicle, below the rear windshield, over the shoulder, in front of your vehicle and low to the ground come back into your field of view and can be negotiated safely, thereby protecting your investment and your family. **An average of one child per week is either killed or injured at home by reversing vehicles in Australia**, a statistic that could be significantly reduced by adding Parkmate accessories to your vehicle.

## CAMERAS

### CD-5JN

Colour CCD Camera - NTSC

- Suited to vehicles with a lip above number plate area
- Flip image option
- 150° viewing angle
- Glass lens
- Durable metal body
- Waterproof grade: IP68
- Minimum Illumination: 0.2 LUX
- Size: 19mm x 25mm

### CD-51EN

Colour CCD Camera - NTSC

- Butterfly mount adjustable to almost any angle
- Small footprint
- 150° viewing angle
- Glass lens
- Durable metal body
- Waterproof grade: IP68
- Minimum Illumination: 0.3 LUX
- Size: 19mm x 15mm

### CD-61NA

Colour CCD Camera - NTSC

- Suited to trucks, caravans & trailers
- Heavy duty metal construction
- 110° viewing angle
- Glass lens
- Built-in microphone
- Waterproof grade: IP68
- Minimum Illumination: 0.2 LUX
- Size: 82 x 63 x 50mm

### CDD-24KN

Colour Digital CMOS Camera - NTSC

- Grid lines & flip image option
- Adjustable butterfly mount
- High resolution
- 170° viewing angle
- Glass lens
- Durable metal body
- Waterproof grade: IP67
- Minimum Illumination: 0.2 LUX
- Size: 20mm x 20mm

### CDD-28KN

Colour Digital CMOS Camera - NTSC

- Grid lines & flip image option
- Vertically adjustable bracket
- High resolution
- 170° viewing angle
- Glass lens
- Durable square metal body
- Waterproof grade: IP67
- Minimum Illumination: 0.2 LUX
- Size: 25 x 22 x 21mm

### CMD-17N

Colour Digital CMOS Camera - NTSC

- Ideal for vehicles with a lip surface above number plate
- OEM Keyhole mount style
- 170° viewing angle
- Glass lens
- Mini connector for tight spots
- Waterproof grade: IP67
- Minimum Illumination: 0.2 LUX
- Size: 31 x 28 x 20mm

### CMD-12N

Colour Digital CMOS Camera - NTSC

- Multiple mounting options: flush mount or butterfly mount
- Mini connector for tight spots
- 170° viewing angle
- Glass lens
- Durable metal body
- Waterproof grade: IP67
- Minimum Illumination: 0.2 LUX
- Size: 18mm x 17mm

### CD-210N

Colour CCD Camera - NTSC

- Installs flush in bumpers or any flat surface
- Totally concealable
- 120° viewing angle
- Glass lens
- Excellent night vision
- Waterproof grade: IP68
- Minimum Illumination: 0.5 LUX
- Size: 55mm x 31mm

## REARVIEW MIRROR MONITORS

### RVM-043DVR

4.3" Rear-view mirror monitor & DVR

- In-built Digital Video Recorder
- In-built 120" front Crash-Cam
- In-built 4.3" colour LCD screen
- Factory style replacement mirror
- Automatic start-up and shut-down
- Time stamped recorded files
- Loop recording saves space
- G-Sensor auto incident saving
- Records up to two inputs at once
- Anti-glare mirror for night driving
- Auto select reverse camera display
- Audio recording capable
- Multi bracket options included

### RVM-043ATD

4.3" Auto-dimming rear-view mirror monitor

- Auto dimming mirror
- In-built 4.3" colour LCD screen
- Factory style replacement mirror
- Automatic start-up and shut-down
- Auto select reverse camera display
- Auto switching PAL | NTSC
- Auto brightness LCD
- High resolution LCD
- Dual video inputs
- Multi bracket options included

### RVM-043AFR

4.3" Ford Ranger compatible rear-view mirror monitor

- In-built 4.3" colour LCD screen
- Factory style replacement mirror
- Automatic start-up and shut-down
- Auto select reverse camera display
- Anti-glare mirror for night driving
- Auto switching PAL | NTSC
- Auto brightness LCD
- High resolution LCD
- Dual video inputs
- Includes bracket compatible with:
  - Ford Ranger XLT (2011-2015)
  - Ford FG X Ute Base Model (11/2014-2015)
  - Mazda BT-50 2nd Gen. w/rain sensor (2011-2015)

### RVM-043A

4.3" Rear-view mirror monitor

- In-built 4.3" colour LCD screen
- Factory style replacement mirror
- Automatic start-up and shut-down
- Auto select reverse camera display
- Anti-glare mirror for night driving
- Auto switching PAL | NTSC
- Auto brightness LCD
- High resolution LCD
- Dual video inputs
- Control buttons on bottom of mirror

### RVM-430A

4.3" Rear-view mirror monitor

- In-built 4.3" colour LCD screen
- Automatic start-up and shut-down
- Auto select reverse camera display
- Anti-glare mirror for night driving
- Auto switching PAL | NTSC
- High resolution LCD
- Dual video inputs
- Control buttons on side of mirror

### RVM-450A

4.5" Rear-view mirror monitor

- In-built 4.5" colour LCD screen
- Automatic start-up and shut-down
- Auto select reverse camera display
- Anti-glare mirror for night driving
- Auto switching PAL | NTSC
- High resolution LCD
- Dual video inputs
- Control buttons on bottom of mirror

### RVM-450B

4.5" Clip on rear-view mirror monitor

- In-built 4.5" colour LCD screen
- Automatic start-up and shut-down
- Auto select reverse camera display
- Anti-glare mirror for night driving
- Auto switching PAL | NTSC
- High resolution LCD
- Dual video inputs
- Control buttons on bottom of mirror
- Mirror clips over factory mirror

## REARVIEW MIRROR MONITOR PACKS

### MCPK-043BT

Rear-view Bluetooth mirror monitor & camera pack

Mirror monitor features:

- In-built 4.3" colour LCD screen
- In-built hands free Bluetooth
- Voice dialling & music streaming
- Factory style replacement mirror
- Automatic start-up and shut-down
- Auto select reverse camera display
- Auto Brightness LCD
- Dual video inputs
- Multi bracket options included

Camera features:

- Colour Digital CMOS Camera
- 170° viewing angle

### MCPK-43BG

Rear-view clip-on mirror monitor & camera pack

Mirror monitor features:

- In-built 4.3" colour LCD screen
- Automatic start-up and shut-down
- Auto select reverse camera display
- Anti-glare mirror for night driving
- Auto switching PAL | NTSC
- High resolution LCD
- Dual video inputs
- Mirror clips over factory mirror

Camera features:

- Colour CCD Camera - NTSC
- Grid lines & flip image feature
- 170° viewing angle

## MONITOR & CAMERA PACKS

### MCPK-70

Rear-view 7" monitor & camera pack

Monitor features:

- Dash mount 7" LCD monitor
- Auto select reverse camera display
- Dual video inputs
- Remote Control
- 20 metre cable
- Brightness & contrast control
- Multi point mount options

Camera features:

- Colour CCD Camera - NTSC
- Heavy duty metal construction
- 110° viewing angle
- Waterproof grade: IP67

### RVK-50

Rear-view 5.0" monitor & camera pack

Monitor features:

- Dash mount 5.0" LCD monitor
- High brightness digital LCD panel
- Dual video inputs
- Auto select reverse camera display
- Brightness & contrast control
- Multi point mount options

Camera features:

- Colour CCD Camera - NTSC
- Grid lines & flip image feature
- 170° viewing angle
- Waterproof grade: IP67

### RVK-43

Rear-view 4.3" monitor & camera pack

Monitor features:

- Dash mount 4.3" LCD monitor
- High brightness digital LCD panel
- Dual video inputs
- Auto select reverse camera display
- Brightness & contrast control
- Multi point mount options

Camera features:

- Colour CCD Camera - NTSC
- Grid lines & flip image option
- 170° viewing angle
- Waterproof grade: IP67
